

**TWENTIETH ANNUAL
SPRING GOLF TRIP
MID PINES AND PINE NEEDLES**

APRIL 22-25, 2010 CALCUTTA

AN INVITATION FROM YOUR NOBLE CALCUTTA CHAIRMAN

The time has arrived to once again embark on the quest to obtain the financial assets of your friend and foe. Since the early days of golf, it has been proven and time tested that one of the main purposes of this ancient game is man's deep heart felt desire to conquer his foe, to humiliate him and to plunder his fortunes. Put in more common terms: Take his cash, wave it in his face, tell all his friends and put it in your pocket.

Golf without such a promise loses its meaning and dignity. It merely becomes a hobby such as knitting and bird watching. The man who fails to grasp these deep truths of the ancient game disgraces himself and the game and should limit himself to putt putt.

Every round of golf presents itself as an opportunity for man to lift himself up from the ranks of the ordinary and become a champion who is exalted even by those he has conquered.

The rules of the ancient Calcutta make this possible for even the mere ordinary player. The Calcutta is no place for the weak or the coward. Such men should not ever own clubs. This is the arena where modern day Gladiators arm themselves for battle and step into something much bigger than themselves. Armed with driver, irons and putter, all dripping with blood and sweat, it is the daring, unyielding nerves, never holding back, that will bring the player his honored victory.

With that said, I invite all brave men to step forward and embrace the challenge ahead. Leave your past failures and humiliation behind, strive for greatness and victory, which only your guts and wagering of cash can get you invited. Arise all brave hearts! Bid HIGH for the day of your victory or annihilation is near!

Your Noble Chairman in Battle with You,

Michael Wood
